Mr. Michael Connelly  
First Bank Building  
Suite 1700  
St. Paul, Minnesota 55101

RE: Envirochem

Dear Mr. Connelly:

I am in receipt of your letter dated July 31, 1989, stating that there are no references to the Andersen Corporation in the Envirochem log. According to U.S. Environmental Protection Agency's (U.S. EPA) Combined Generator/Site/Hauler records there are seven transactions involving hazardous substances shipped to Envirochem from Andersen Corporation in Bayport and Minneapolis, Minnesota. You correctly indicate that this information is derived from DC#3688.JR SPC-17.

We have also reviewed our site and transporter files to confirm that there has not been any double-counting of gallonage attributed from the Northside site to Envirochem. The waste transactions at the sites occurred in different months and years. U.S. EPA will not make the adjustments you have requested.

Sincerely,

Thomas Krueger  
Assistant Regional Counsel
